

Can Do Canines
2011-2012 Annual Report

Can Do Canines 400th Team!

Tony Metz & Mobility Assist Dog Hudson

Being told you were the 400th at anything might not seem like a reason to celebrate. But for Tony Metz of Apple Valley, Minnesota, it was one of the best days of his life.

In 2012, Tony and his Mobility Assist Dog, Hudson, became the 400th team to receive certification from Can Do Canines, Minnesota's leading assistance dog program.

"With the acceleration of our building completion we were able to arrive at our landmark 400th team earlier than expected," notes Can Do Canines Founder and Executive Director, Al Peters. This point is not lost on Tony and his family who knew the benefits an assistance dog could provide this young college student.

Tony has Duchenne muscular dystrophy (DMD), which limits his ability to perform ordinary tasks such as opening doors and picking up dropped items. Hudson, a two-year-old black Labrador Retriever,

gives Tony the independence all college students cherish by providing assistance when things are dropped and doors need opening. Now going to school, shopping and socializing are a normal part of this active college sophomore's life, as it should be, thanks to his canine partner.

As is often the case with assistance dogs, Hudson has become an extension of the Metz family. He's a regular jogging partner with mom, Carol. Tony's dad, Steve, enjoys Hudson's comical antics as a way of relieving stress after work. Carol notes, "This has been a fabulous experience for us. We look forward to Hudson being a part of our family for a long time."

The Metz family also knows how lucky being team 400 is for them. The demand for dogs like Hudson is ever increasing, as Can Do Canines refines ways to train canine companions to provide the services needed by individuals with mobility, hearing, seizure, diabetes and autism disorders. The availability of these dogs is limited only by Can Do Canines ability to hire additional staff.

The Metz family knows that Hudson came to them because of the many volunteers, donors and sponsors of the organization who give their time, talent and donations. The Metz family is thankful to the many individuals who support Can Do Canines because Hudson changed the lives of their entire family. ♥

A happy Tony and Hudson after completing the certification test.

Mission Statement

Can Do Canines is dedicated to enhancing the quality of life for people with disabilities by creating mutually beneficial partnerships with specially trained dogs.

Vision Statement

We envision a future in which every person who needs and wants an assistance dog can have one.

From the Executive Director

It is my honor to be able to provide you with highlights of the many accomplishments that were achieved by Can Do Canines during 2011 and 2012. It took the work of many dedicated volunteers and hardworking staff to move us through these two important years and to demonstrate growth that we have never experienced before. Your contribution to this effort, whether it was financial, volunteer, or both, moved our mission forward by providing more high-quality assistance dogs in the community.

This year I have the unique opportunity of sharing the accomplishments of two years in one report. Due to a number of positive changes within our organization, including a brand-new cloud-based database, a new accounting system and continued work on our building, it was deemed necessary to delay the production of the 2011 annual report until we could present it in tandem with 2012.

During 2011 and into 2012, we completed Phase II of The Capital Campaign for Independence and the construction project on our new home in New Hope, Minnesota. We added 10 additional kennel runs, "The Lions Kennels", with \$150,000 provided by individual Lions clubs and Lions Clubs International Foundation. A new, fully accessible parking lot welcomes visitors at the front of our building. We also finished interior spaces in the building that include 19 additional office spaces, a volunteer center, a caretaker's apartment, and an overnight room for clients visiting from a distance.

This project was a huge undertaking and yet we didn't let it distract from our mission. During 2011 we actually increased the number of assistance dogs trained from 30 in 2010 to 39 teams in 2011, a 30% increase in graduates. Overall, we graduated 79 assistance dog teams during 2011 and 2012.

Volunteer puppy raisers are the key to preparing our young canines to become ready for their future jobs as assistance dogs. We had 101 puppy raisers providing service to the organization during these two years. We initiated a new program in 2011 at the Federal Correctional Institution in Waseca that includes female inmates training puppies for the organization. In all, 56 puppies were born through our breeding program.

We completed Phase II of the construction project at the end of 2012 by securing significant gifts that ensure that our facility will be paid for in full by the end of 2016. Completing Phase II of our campaign was a huge accomplishment and a source of great pride for all concerned.

As 2012 ended, we set our sights on completing Phase III of the Capital Campaign, the final step in this journey. Phase III will raise money to fund expansion of critical materials and support systems that will allow us to further increase the number of graduates in future years. Phase III will end on December 31, 2013.

Generous gifts from individual contributors continue to be the most important source of support for our work. However, special events have also increased in importance. In particular, the Fetching Ball, both in 2011 and 2012, have produced two outstanding opportunities to learn about our mission while enjoying a great event. All told, the Fetching Ball, our Tails of Independence fundraising luncheon, Give MN, the phone-a-thon, and the annual Woofaroo, newly named in 2012, resulted in almost \$200,000 of much needed support.

We had cause for both celebration and sadness during 2012. Toward the end of the year Can Do Canines graduated the team of Tony Metz and Mobility Assist Dog Hudson, celebrating our 400th team! (See inside cover.) What an accomplishment!

However, in February 2012, long-time supporter and employee, Lee Perish, passed away suddenly. Lee supported the efforts of our organization even before it was incorporated in 1987, and stuck with us throughout her lifetime. In August, we lost six-time team sponsor, Bill McNeely, who had supported us in so many ways through the years. Lee and Bill are both sorely missed at Can Do Canines.

I am so very proud of everyone who contributed to our success during 2011 and 2012. We lived through some challenging demands and experienced limited resources and tough economic times. However, Can Do Canines continued to make a difference in the lives of people with disabilities while setting high standards and producing the best assistance dogs for our clients.

I wish we could share every story behind each graduate who passed through our doors during the last two years. Each story is unique and touches my heart. Instead, we have picked five snapshots to help you better understand our services and the changes they provide in the lives of our clients.

Your involvement with Can Do Canines gives life to our mission and gives meaning to our work. Our dogs fetch amazing things. They retrieve personal dignity by providing the gifts of freedom and independence for our graduates. Thank you for joining us in this important work. ♥

Al Peters with
Trainee, Samson

Meet Our Graduate Teams

Caleb Jacobs & Autism Assist Dog Cooper

Introducing a dog into a family can bring some change to most households. But for the Jacobs family of Woodbury, Minnesota, bringing an assistance dog into their home dramatically changed the lives of every family member. Cooper, a two-year-old Labrador Retriever was trained as an Autism Assist Dog for Amee and Robert Jacobs' son, Caleb.

Prior to Cooper's arrival, the Jacobs family limited time outside their home because of the negative impact being in public had on their son. Caleb, a sweet, but growing, nine-year-old, was strong enough to break free from family members when stressed in public. This posed a safety risk for everyone in the family.

"We waited four years to learn that a dog was available for us," remembers Caleb's mom. "We knew our lives would change, but we didn't realize to what extent." When Amee comments on the attachment Caleb has with Cooper, she isn't just talking about the emotional side. Caleb and Cooper are attached by a specially designed tethering system that allows Amee to hold on to Cooper, while Caleb holds a handle on the dog's harness. Caleb knows that he is responsible for Cooper to be at his side. This focused responsibility gives Caleb a sense of well being and pride when in public. It redirects some of his stress to the job he has in working together with Cooper.

Life is different for the Jacobs with Cooper as part of the family. It allows everyone to enjoy being together, doing "regular" things other families enjoy. ❤️

Andrea Miller & Seizure Assist Dog Drake

"Knowing Drake is there by my side and that his vest will alert people to my medical needs gives me confidence to lead the life of independence I always dreamed of," notes Andrea Miller of Minnetonka, Minnesota, a Can Do Canines team graduate who has an epilepsy and complex seizure disorder.

Being diagnosed at age one, and as a survivor of brain cancer, Andrea expected her life to be "different." Instead, in 2011 her doctor suggested she consider getting an assistance dog. That is when life took a turn. A "pawsome" turn! After attending a tour of the Can Do Canines training facility in New Hope, Minnesota, Andrea learned that a specially trained Seizure Assist Dog could provide the independent life she always envisioned. Drake, a big, beautiful yellow Labrador Retriever, provided by a breeder to Can Do Canines, was the perfect match for Andrea's specific needs. Drake's low-key nature and ability to be there for his client helped to make the match a natural. Drake learned to stay with Andrea when she has a seizure, placing his head on her lap to keep her in place, and licking her face to help her recover faster. Drake will also get help from another person when needed to assist Andrea.

"Things are different now," notes Andrea. "Good different, and better than ever." ❤️

What We Do:

Can Do Canines is dedicated to enhancing the quality of life for people with disabilities by creating mutually beneficial partnerships with specially trained dogs. We envision a future in which every person who needs and wants an assistance dog can have one.

Hearing Assist Dogs are often selected from local animal shelters. The dog alerts a person who is deaf or hard of hearing to sounds by making physical contact with them and then leading them to the source of the sound.

Mobility Assist Dogs work with people who have mobility challenges and other needs. They pick up and carry objects, pull wheelchairs, open doors, and help to pay at tall counters.

Stephanie Magelky & Hearing Assist Dog Stevie

At age 30, Stephanie Magelky of Bloomington, Minnesota experienced sensorineural hearing loss, a progressive condition. She first became a client of Can Do Canines in 1995 with Hearing Assist Dog, Sadie, and has had to endure the loss of both Sadie and successor dog, Jeff, over

Diabetes Assist Dogs detect low blood sugar levels by sensing a change in their partner's breath. The dog alerts their partner by touching them in a significant way.

Seizure Response Dogs respond to a person having a seizure by licking their face, retrieving an emergency phone, and alerting other family members.

Autism Assist Dogs keep children with autism safe in public settings and help them experience the world more fully by offering comfort and assurance. These special dogs also serve as a social bridge between the family and the public.

Dogs, training and supplies are provided to each client free of charge. ❤️

the years. These two dedicated helpers had provided her with years of assistance, allowing her to live an independent life.

Not needing convincing that an assistance dog in her life was the right thing, Stephanie applied to Can Do Canines for her third canine companion.

Hearing Assist Dog Stevie, a perky terrier mix donated by the rescue program, Secondhand Hounds, was ready to be socialized and specifically trained for Stephanie's needs.

When asked if Stevie was different than her other two assistance dogs, Stephanie replied, "Stevie is quick to learn, energetic and well trained for my needs. I am totally sold on assistance dogs and their contribution to a person's quality of life. I love that all three of my assistance dogs were rescues. We rescued each other." ❤️

Carrie Enea & Diabetes Assist Dog Ava

Life at 23 should be carefree and unlimited in its scope and opportunity. For Carrie Enea of Milwaukee, Wisconsin, life was limited by Type 1 diabetes. Her routine of meeting with doctors every two months, wearing an insulin pump and trying to keep her blood sugars at an ideal level narrowed her life in the most profound ways.

After a series of 911 calls and near death experiences, Carrie began to research local diabetes assistance dog programs. Learning about Can Do Canines, Minnesota's leading provider of Diabetes Assist Dogs, Carrie immediately applied.

Matched with 16-month-old Smooth Coat Collie Ava, Carrie began the process towards graduation. Ava, one of ten puppies trained through the Federal Correctional Institution at Sandstone cooperative puppy-raising program, learned the basics of good behavior prior to being trained to meet Carrie's specific needs.

Soon after being placed with Carrie, Ava joined her at work and began to alert on a regular basis. "I immediately tested my blood sugar, and she was alerting me to the fact that my levels were dropping quickly," Carrie recalls. "She is always on the job and this has dramatically changed my life and the lives of my husband and child."

"I am thankful not only to Can Do Canines, but to all the donors who make the organization possible," Carrie adds. "These dogs are amazing." ❤️

Carl Osborne & Mobility Assist Dog Chloe

Sometimes a prescription for a better life can be covered in hair and have a tail. For Carl Osborne, DVM and researcher at the University of Minnesota Veterinary Medical Center, Mobility Assist Dog Chloe was the Rx he needed in his personal quest for increased mobility.

It is ironic that this veterinarian, who applied his skills to improve the lives of canines, would turn to their skills to improve his life. Learning in 1995 that he had Parkinson's disease, Dr. Osborne of Roseville, Minnesota, adapted to the changes in his physical condition making adjustments with the help of his wife, Lynn. Lynn notes that through the years, Carl would just ask, "what can we do next?" Reaching the point where his ability to function independently was severely limited, a university librarian suggested he explore the option of an assistance dog through Minnesota-based Can Do Canines.

Chloe, a chocolate Labrador Retriever, was just what the doctor ordered. The first thing Chloe provided was peace of mind for the Osborne family knowing she would be there to help Carl with his mobility needs. Carl notes that her name is Greek for love and people. He explains that the volunteers and donors who make assistance dogs possible are showing their love for others by helping people get the life-changing assistance they need.

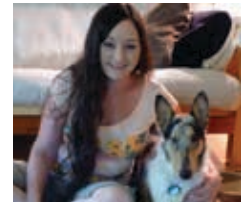

Chloe and Carl are already celebrities, being featured in an article about assistance dogs in the veterinary magazine, DVM. "Chloe keeps me happy, and she makes me laugh every day," Carl says. Life is good for Carl and Lynn since Chloe became part of the team! ❤️

Legacy Club

The Legacy Club honors two groups of generous individuals; those who, while living, inform Can Do Canines of their intentions to include us in their will or planned giving device, and those who have passed on (indicated with a D) and already made bequests to further our work. We are grateful for their faith in Can Do Canines.

Can Do Canines Donor Privacy Policy

Can Do Canines is committed to respecting the privacy of our donors. We have developed this privacy policy to ensure our donors that donor information will not be shared with any third party. Can Do Canines provides this Donor Privacy Policy to make you aware of our privacy policy, and to inform you of the way your information is used. We also provide you with the opportunity to remove your name from our mailing list, if you desire to do so.

We collect and maintain the following types of donor information:

- contact information: name, organization, complete address, phone number, email address;
- payment information: credit card number and expiration date, and billing information;
- requests to receive periodic updates: e.g., to individuals who request it, we will send periodic mailings and/or e-mails related to Can Do Canines events, newsletters, and general or specific fund-raising events or appeals.

Can Do Canines uses your information to complete a transaction, communicate back to you, and update you on organization happenings. Credit card numbers are used only for donation or payment processing and are not retained for other purposes. Can Do Canines will not sell, rent, or lease your personal information to other organizations. We assure you that the identity of all our donors will be kept confidential when requested. Use of donor information will be limited to the internal purposes of Can Do Canines. It is our desire to not send unwanted mail to our donors. Please contact us if you wish to be removed from our mailing list or e-mail communications.

If you have comments or questions about our donor privacy policy, please send us an email at info@can-do-canines.org or call us at 763-331-3000.

We are proud to announce that this report was created and produced without using any donor contributions! Our special thanks to Elizabeth Lindberg for conception and production, Dianne Astry for content, Mary Decheine-Rhatigan for production, with complete printing services by
