Let's Go

Off

Go over to their mat and lie down
and wait until released.

Nose-to-hand for position and or
“reset”.

Push head into
collar/cape/harness.

Rests chin on your hand for
cooperative care (eye boogies,
teeth brushing).

Get all four feet on the floor and off
whatever they were on.

This tells your dog you are about to
start walking with a nice loose leash

Go through

This is a short-term pause.
(ex. Doorways and meals).

Dog stands parallel to you on your
left side.

Back up in a straight line.

Dog stands parallel to you on your
right side.

Go ahead of the handler, through a
doorway or tight space, and then
turn to face the handler.

Jump, so four feet are all on a
surface.

Release word. They can stop doing the previous command.

Releases the dog to eat a dropped or tossed cookie.

The dog places its front feet onto an elevated surface such as a stair.

Lift front feet to fix tangled leash.

Come within reach of the handler (from a distance).

Fall in-line behind handler (for tight spaces).

Under

Yes!

Elimination command (limit the time and the area given).

Get an object off of the floor and bring it to you.

Go into a crate.

Don't move. Release when near the dog, not at a distance.

Reward marker. This word captures a behavior and indicates the reward comes from hand.

Go under a surface (such as a table) and lie down.
